VISUAL IDENTITY PRESENTATION

PROSANA CLINIC

FINAL MEDICAL + AESTHETIC DIRECTION

PROSANA

CLINIC

Care meets
confidence.

A refined identity for medical, aesthetic and whole-person wellbeing.

For health. For confidence.

PROSANA combines a direct name cue with a human story. Pro suggests professional support and progress. Sana carries the idea of health, healing and wellbeing.

PRO

PROFESSIONAL CARE

Support and progress.

SANA

HEALTH + WELLBEING

Care for the whole person.

The result is a symbol that feels clinical without becoming cold, and aesthetic without becoming superficial.

One mark. Four meanings.

01 / P - PROSANA

The opening structure creates a direct connection to the clinic name.

02 / S + PROFILE

The flowing S shapes a human profile and connects Sana to aesthetics.

03 / MEDICAL CUE

A small cross is cut into the structure as a precise clinical signal.

04 / OPEN EMBRACE

The outer curve stays open to suggest wellbeing, progress and continuing care.

P + S + PERSON + CARE

A signature for every setting.

FULL COLOUR ON COOL WHITE

REVERSED ON DEEP BLUE

WHITE ON SLATE

Use only supplied vector masters. Never redraw or retype the signature.

Colour with quiet confidence.

DEEP BLUE

#223B84

FOUNDATION / CONTRAST

COOL WHITE

#F6FBFD

SPACE / CLARITY

LIGHT BLUE

#66C2EA

SIGNATURE / CARE

SLATE

#243746

TYPE / CONTRAST

Precise, calm and human.

PRIMARY / CUSTOM-SPACED NOTO SANS OUTLINES

PROSANA

C L I N I C

EDITORIAL DISPLAY / NOTO SERIF

Care, considered.

SUPPORTING / NOTO SANS

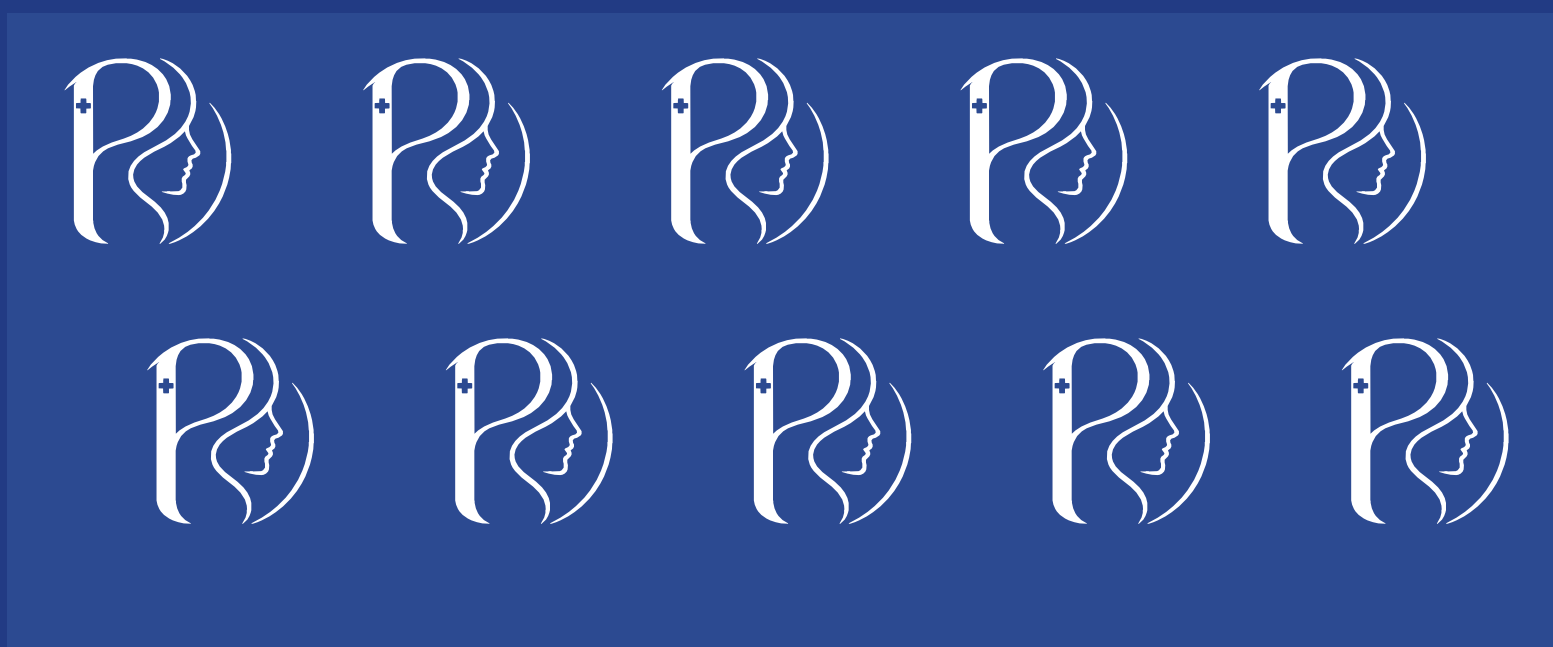

Clear words. Calm spacing.
A recognisable clinical voice.

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz 0123456789

A system grown from the symbol.

Use the P curve, the flowing S and the open outer arc as framing devices. Keep the compositions spacious and never rebuild the profile from unrelated decorative lines.

PROFILE CROP

COMPLETE SIGNATURE

A confident first touch.

UNCOATED STOCK / LIGHT BLUE FOIL / COOL WHITE

Two complementary faces balance presence and restraint. Foil is a proposed material finish and requires a physical printer proof.

The design, made clear.

FRONT / SIGNATURE

REVERSE / SUPPORTING LANGUAGE

Final dimensions, contact details, bleed and print finish are confirmed before production.

Care, carried through.

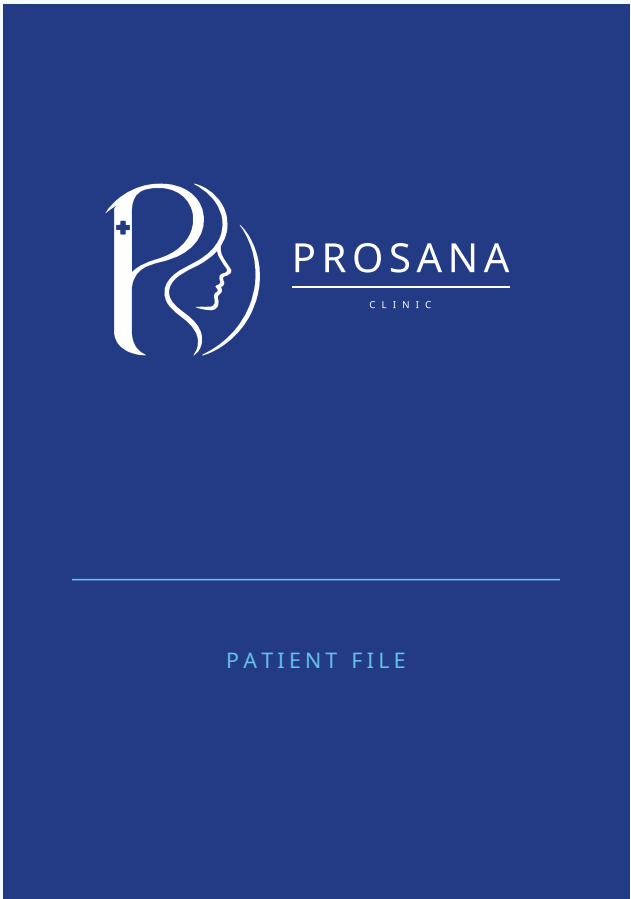

PATIENT FOLDER / LETTERHEAD / APPOINTMENT CARD

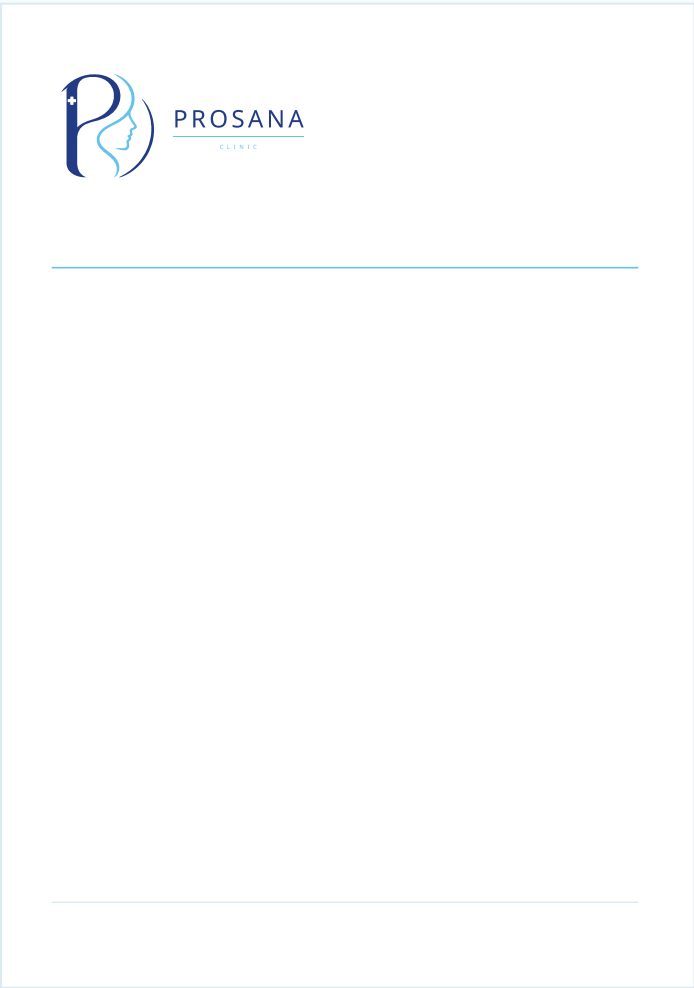

The same signature moves through the patient journey. Information fields remain intentionally blank until real clinic details are confirmed.

Every detail belongs.

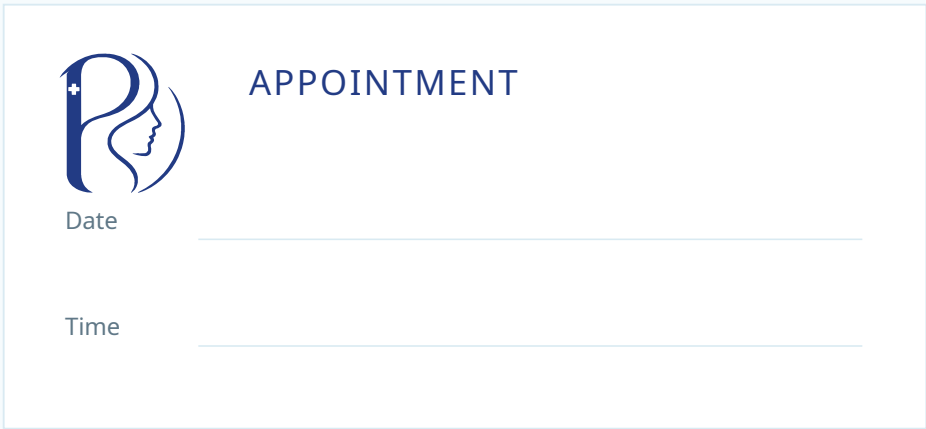

01 / PATIENT FOLDER

02 / LETTERHEAD

03 / APPOINTMENT CARD

Illustrative layouts only. Final sizes, data, colour profiles and printer specifications are set during production.

An identity you can enter.

DIMENSIONAL SIGNAGE / MATERIAL EXPRESSION

Warm stone, deep blue and light-blue metal translate the visual identity into a calm architectural experience.

Begin with a conversation.

Book a consultation

One language. Three moments.

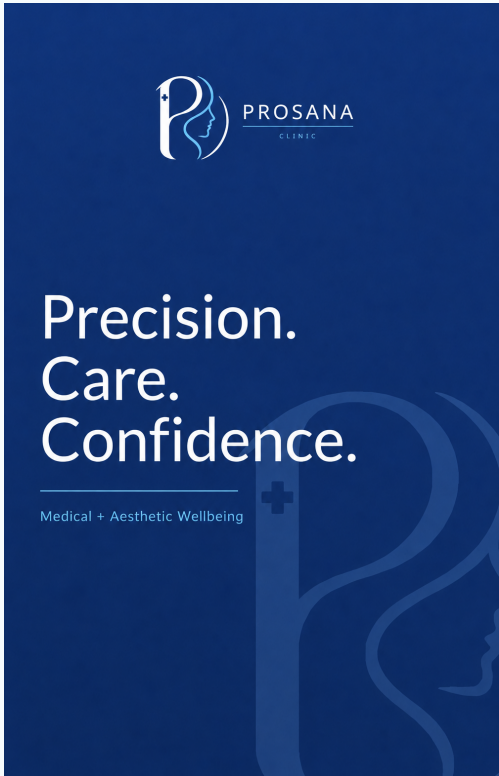

01 / INTRODUCTION

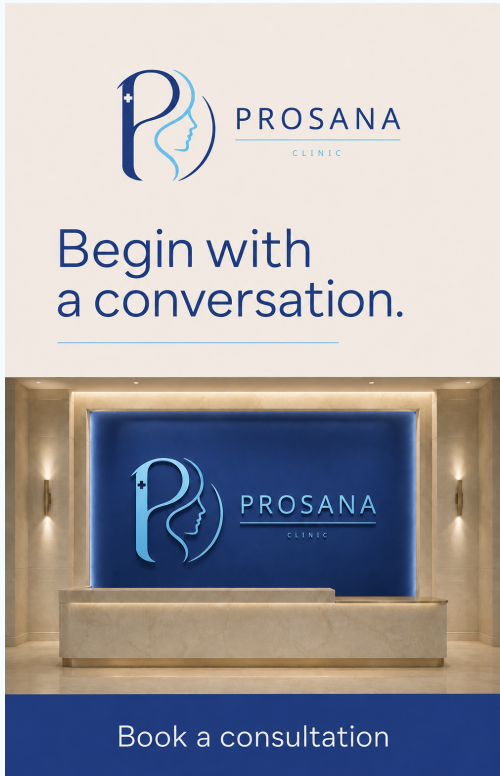

Introduce the promise through a human profile.

02 / MEANING

Build recognition through type and symbol.

03 / INVITATION

Turn attention into a clear next step.

CONSISTENT COLOUR / TYPE / SIGNATURE

Give the mark room to breathe.

Clear space is measured from one quarter of the symbol width. Keep the full area free from type, photography and edges.

SCALE CHECK

From identity to application.

01 / VECTOR MASTERS

Primary, symbol and component assets are supplied as SVG paths in full colour, deep blue, light blue and white.

02 / APPLICATION SYSTEM

Business cards, clinic stationery, dimensional signage and three social posts establish the first rollout.

03 / COLOUR + FINISH

RGB references define screen colour. Light-blue enamel and brushed metal are physical finishes and must be proofed.

04 / BEFORE LAUNCH

Confirm legal clinic details, services, copy, production sizes, bleed and channel-specific export settings.

Interiors, portraits and mockups are concept visuals. They do not document an existing clinic, patient or treatment result. Vector masters remain the reference for exact logo reproduction.

Brand with purpose.
